GN8

Be Better, for Best Love

We've been striving to improve ourselves on the journey to pursue our dreams.

Nevertheless, the true fortune of life is to share the success and cherish the beloved.

Treat others with all due respect and your beloved ones with unique driving experiences.

Noble in Every Aspect

Magnificent Exterior

Combination of light and shade.
A blend of gentleness and power.
Sharp and steady road performance.

Yacht Styling, Grand Exterior

“Mobile Palace” in the New Era

Width: 1923mm, Length: over 5000mm,
Wheelbase: 3000mm

1 Luxury Yacht Side Styling

Fusing of light and shade creates a magnificent beauty. Inspired by the styling of a luxury yacht, the overall styling is characteristic of the light-shadow sculpture 2.0 design aesthetics -- rhythmic, calm and stately. With smart, elegant lines, the side looks slender and ethereal, flowing naturally.

2 Flying Dynamics Front Grille

Born noble. The horizontal lines of the Flying Dynamics front grille are powerful. The front face with light and dark tones combines exquisite, stylish design with composed, tasteful connotation.

3 Chrome-plated Dual Tailpipes

The chrome-plated dual tailpipes are fashionable and dynamic with least noise.

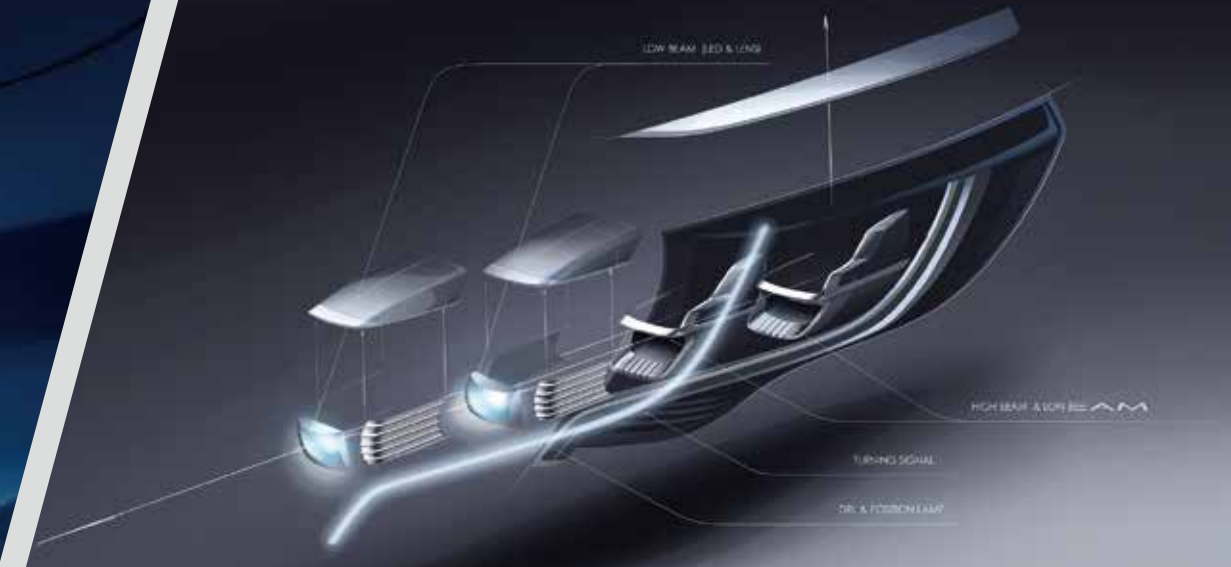

High-tech Luxury LED Lamp Set

Sharp Matrix LED Headlights

With higher projection capability than Xenon headlights, the Matrix LED headlights adopt inlay design comparable to luxury jewelry; four modules enclose the lens with sheet structure, like bright crystal.

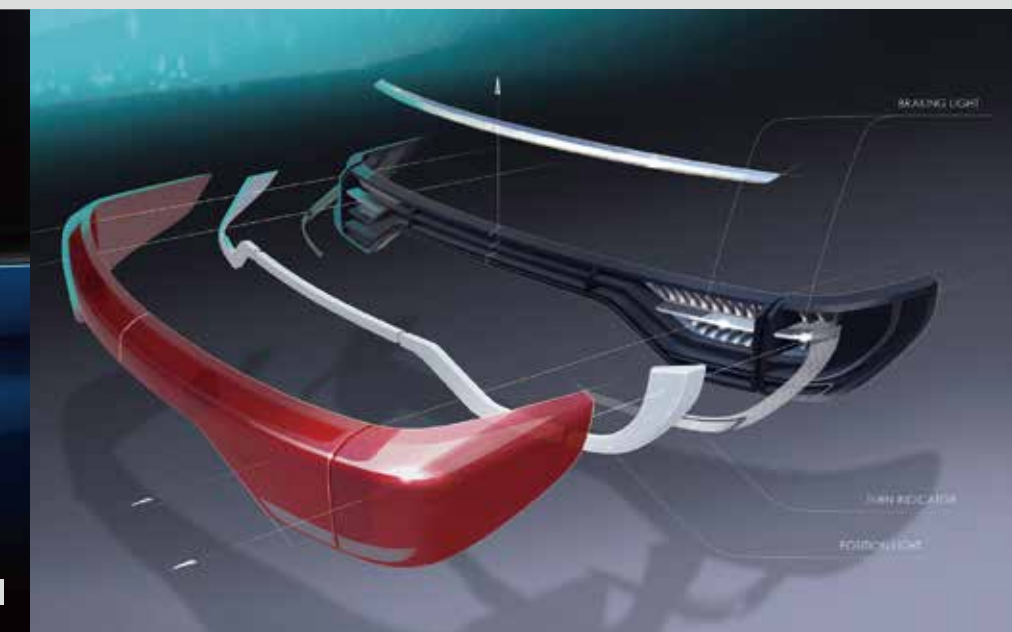

1 Horizontal, Integrated LED Taillights

Speed forward with confidence. The horizontal, integrated LED taillights composed of 152 LEDs combine advanced technologies with luxury. Compared with halogen lamps, they are brighter and faster with larger lighting area, longer lifespan and better lighting effect. Through rhythmic width changes, the taillight styling is more stereo, fashionable and recognizable.

2 LED Daytime Running Lights

Just a glance, you'll never forget about it. The streamlined light guide with a diameter of 10mm boasts beautiful curve design, which is perfectly matched with the powerful front grille styling. It is striking at the first sight for its rhythm and vigor.

Making Every Journey Exquisitely Luxurious
Luxury Cabin with All Sensual Enjoyment

Mobile palace with exclusive storage spaces.
Luxurious and exquisite craftsmanship meets the
demand of tasteful customers.

Exclusive First-class Cabin Seat

Second-row First-class Leather Seat

Luxury seats are built for dignified treatment. The spacious second row seats with higher quality leather deliver superior comfort for passengers.

1 Open Double-pane Panoramic Sunroof + Dazzling 32-color Intelligent Atmosphere Lamps

The open double-pane panoramic sunroof and dazzling 32-color intelligent atmosphere lamps are suitable for various use cases. Aisin front sunroof with anti-pinch function can be opened/closed at one button; and the rear sunroof boasts leading-in-class dimensions of 728*628mm. You can enjoy beautiful scenery from the exclusive sunroofs.

2 Multi-functional Fixed Armrest

Details matter. The second row seats are equipped with broad fixed armrest, electric leg rest and head rest plus ventilation, heating and massage functions. The extraordinary details are developed for successful people.

Light Luxury and Elegant Interior Design

Full View Center Console + Wraparound Cabin Design

Benefiting from more user-friendly wraparound cabin design, the center console is broader with easier operation, making abundant, exquisite parts at fingertips. The whole interior is wrapped by premium soft ornament with a calm and grand color.

1 Diamond-pattern Stitching + Automatic Lifting Central Window

Exquisite and unique. The bright central window with the automatic lifting function can be opened at will so that you can embrace refreshing breeze and breathe fresh air freely. Moreover, the central door panel adopts distinctive diamond-pattern stitching, which makes the interior more elegant and exquisite.

2 Light Luxury Madrid Color Scheme

Elegant taste originates from graceful character. The eco-friendly materials build a beauty of harmony and elegance through combining dark olive grey and light satin grey. The interiors adopt luxury car leather package, complemented by matte fine grain craftsmanship.

Serene and Tranquil Space like in the deep sea

360 Degree All-round Tranquil Cabin

Enjoy tranquility in a hustling and bustling environment.

The 36.7db tranquility at idle speed creates almost no vibration. The arrangement of cavity blocks, together with the application of acoustic sound absorption and insulation materials, bring class-leading air tightness. Every detail is carefully considered from the door to instrument panel and to the exhaust system. The comprehensively improved noise insulation and absorption, comfort and tranquility are just part of the benefits GAC Motor GN8 offers.

Efficient Pure Forest Oxygen Bar System

Natural air purification system by utilizing forest factors.

The advanced three-zone climate control, AQS, PM2.5 filter, and forest oxygen bar system, together with the cabin purification technology developed by GAC, can rapidly remove the particles, dusts and materials with unpleasant odor, creating a pure room of 3 million negative ions per cm^3 for leisurely experience.

Eco-friendly, Low-VOC, Odorless Cabin

Unique and exceptional user experience.

Based on GAC standards, GAC Motor GN8 selects low-VOC premium eco-friendly materials to build an "eco-friendliness standard". Moreover, the "GAC Production System(GPS)", together with "top 10 global suppliers", stringently controls the production process to create an exclusive pleasant low-VOC odorless room.

Smart in Every Aspect
Meticulous Comfortable Technology

Simplified operating systems.
Leisurely and delightful driving

Considerate Human-oriented Technologies

Fully Automatic Double Sliding Doors

The fully automatic double sliding doors feature anti-pinch function and four opening modes, including remote key control, external handle, internal handle and front row integrated switch. Repeatedly optimized details and carefully tuned voice system bring the pleasant sound of prompt reminder at door opening/closing, and the smooth vibration sound from door sliding. A superior experience starts from the simple gesture of opening and closing the door.

Wireless Smartphone Charging +220v Power Supply

Say goodbye to tangled wires and lost charging cables!

By virtue of the near field communication technology, you're allowed to charge your mobile phone at once in the quickest, easiest and neatest way without the need for multiple power points or messy charging cables.

Easy Open Power Liftgate

Considerate designs offer four opening modes, allowing flexible adjustment of opening height.

Flexible, Variable Interior Room

The rear seats have multiple combination modes to achieve higher room utilization through 4/6 folding and backward shifting, meeting family and business needs with more freedom of switching.

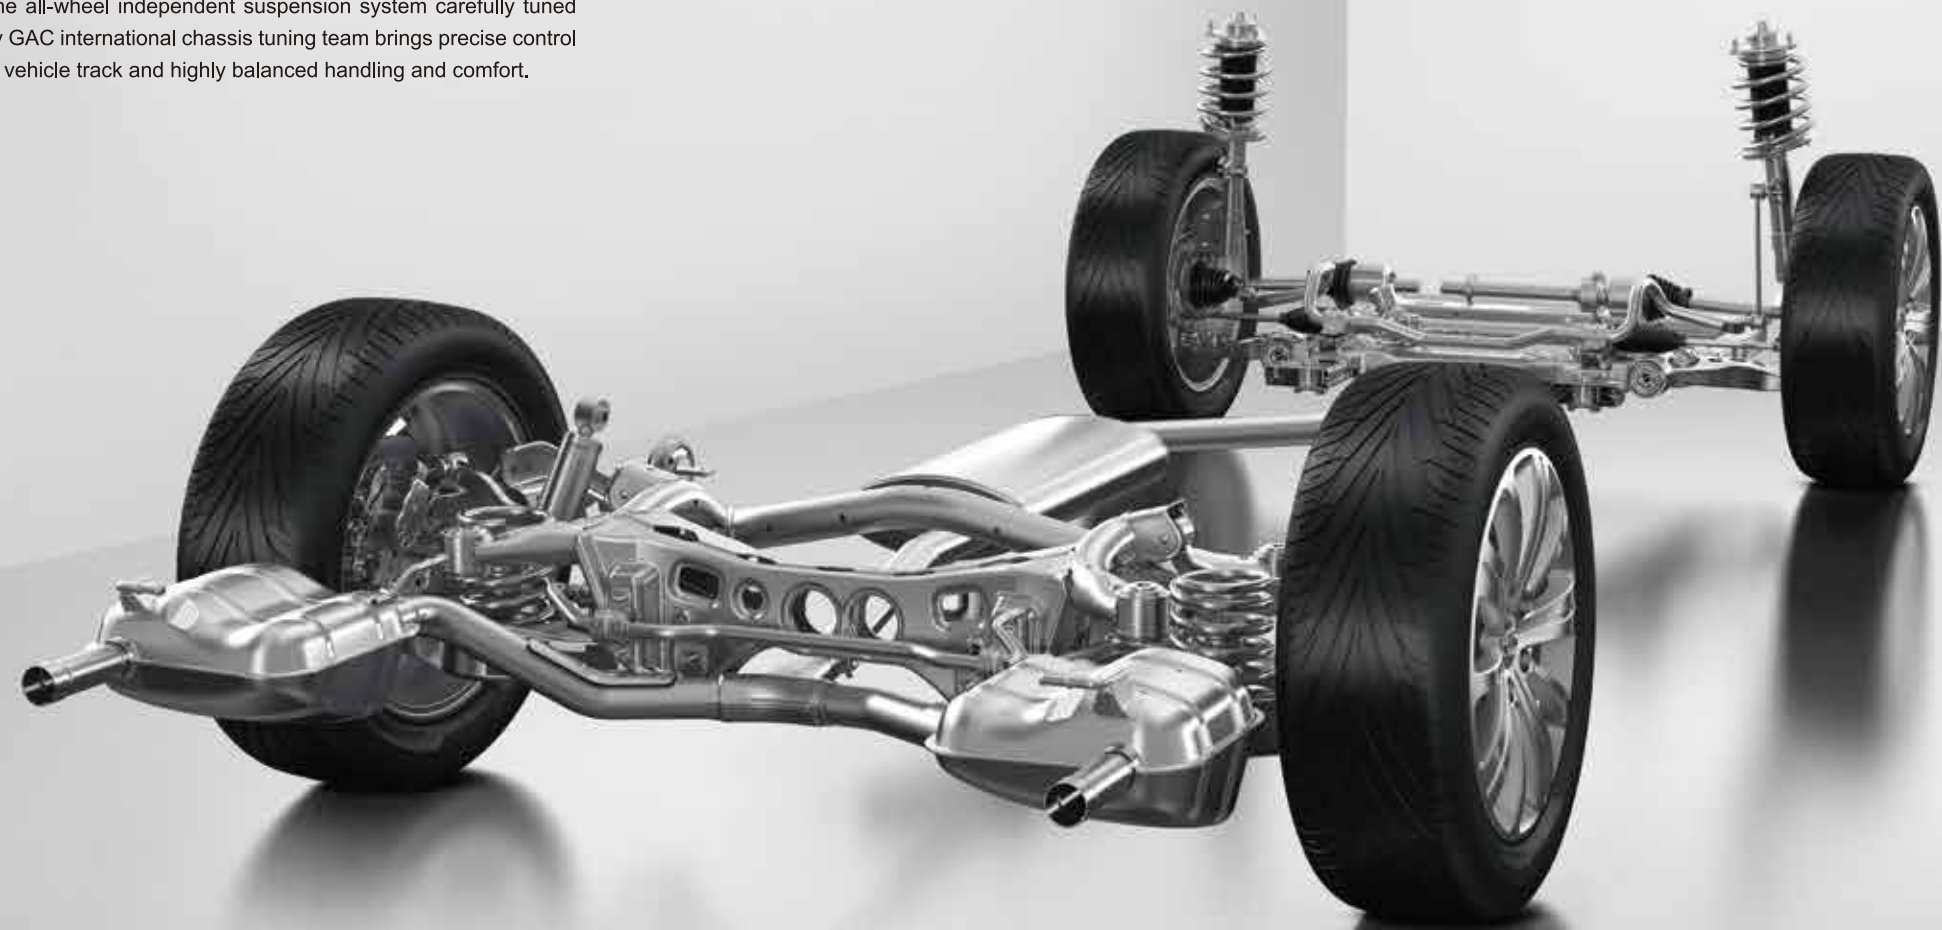

1 7-inch Full-color LCD Display

The super high definition full-color instrument display comparable to those of international luxury cars is able to connect with the center console screen and smartphone screen in real time, and interactively display the navigation, entertainment and vehicle information to reduce deviation and enhance driving safety.

Dynamic Enjoyment and Stable Driving

All-wheel Independent Suspension System

The all-wheel independent suspension system carefully tuned by GAC international chassis tuning team brings precise control of vehicle track and highly balanced handling and comfort.

1 More Powerful GAC Motor Second Generation 320T Engine

Equipped with BorgWarner low-inertia turbocharger and more than 50 forefront technologies such as low-inertia E-turbo technology and Gasoline Combustion Control System (GCCS), GAC Motor second generation 320T engine can deliver torque of 320Nm at 1,750rpm maximum, ensuring better power, more sufficient combustion, fuel saving and greater performance.

2 Aisin Third Generation 6-speed Automatic Transmission

Adopting with five driving modes, the third generation Aisin 6-speed automatic transmission provides smooth driving and ultra-low fuel consumption, which has been already proved through durability test of 10 million kilometres.

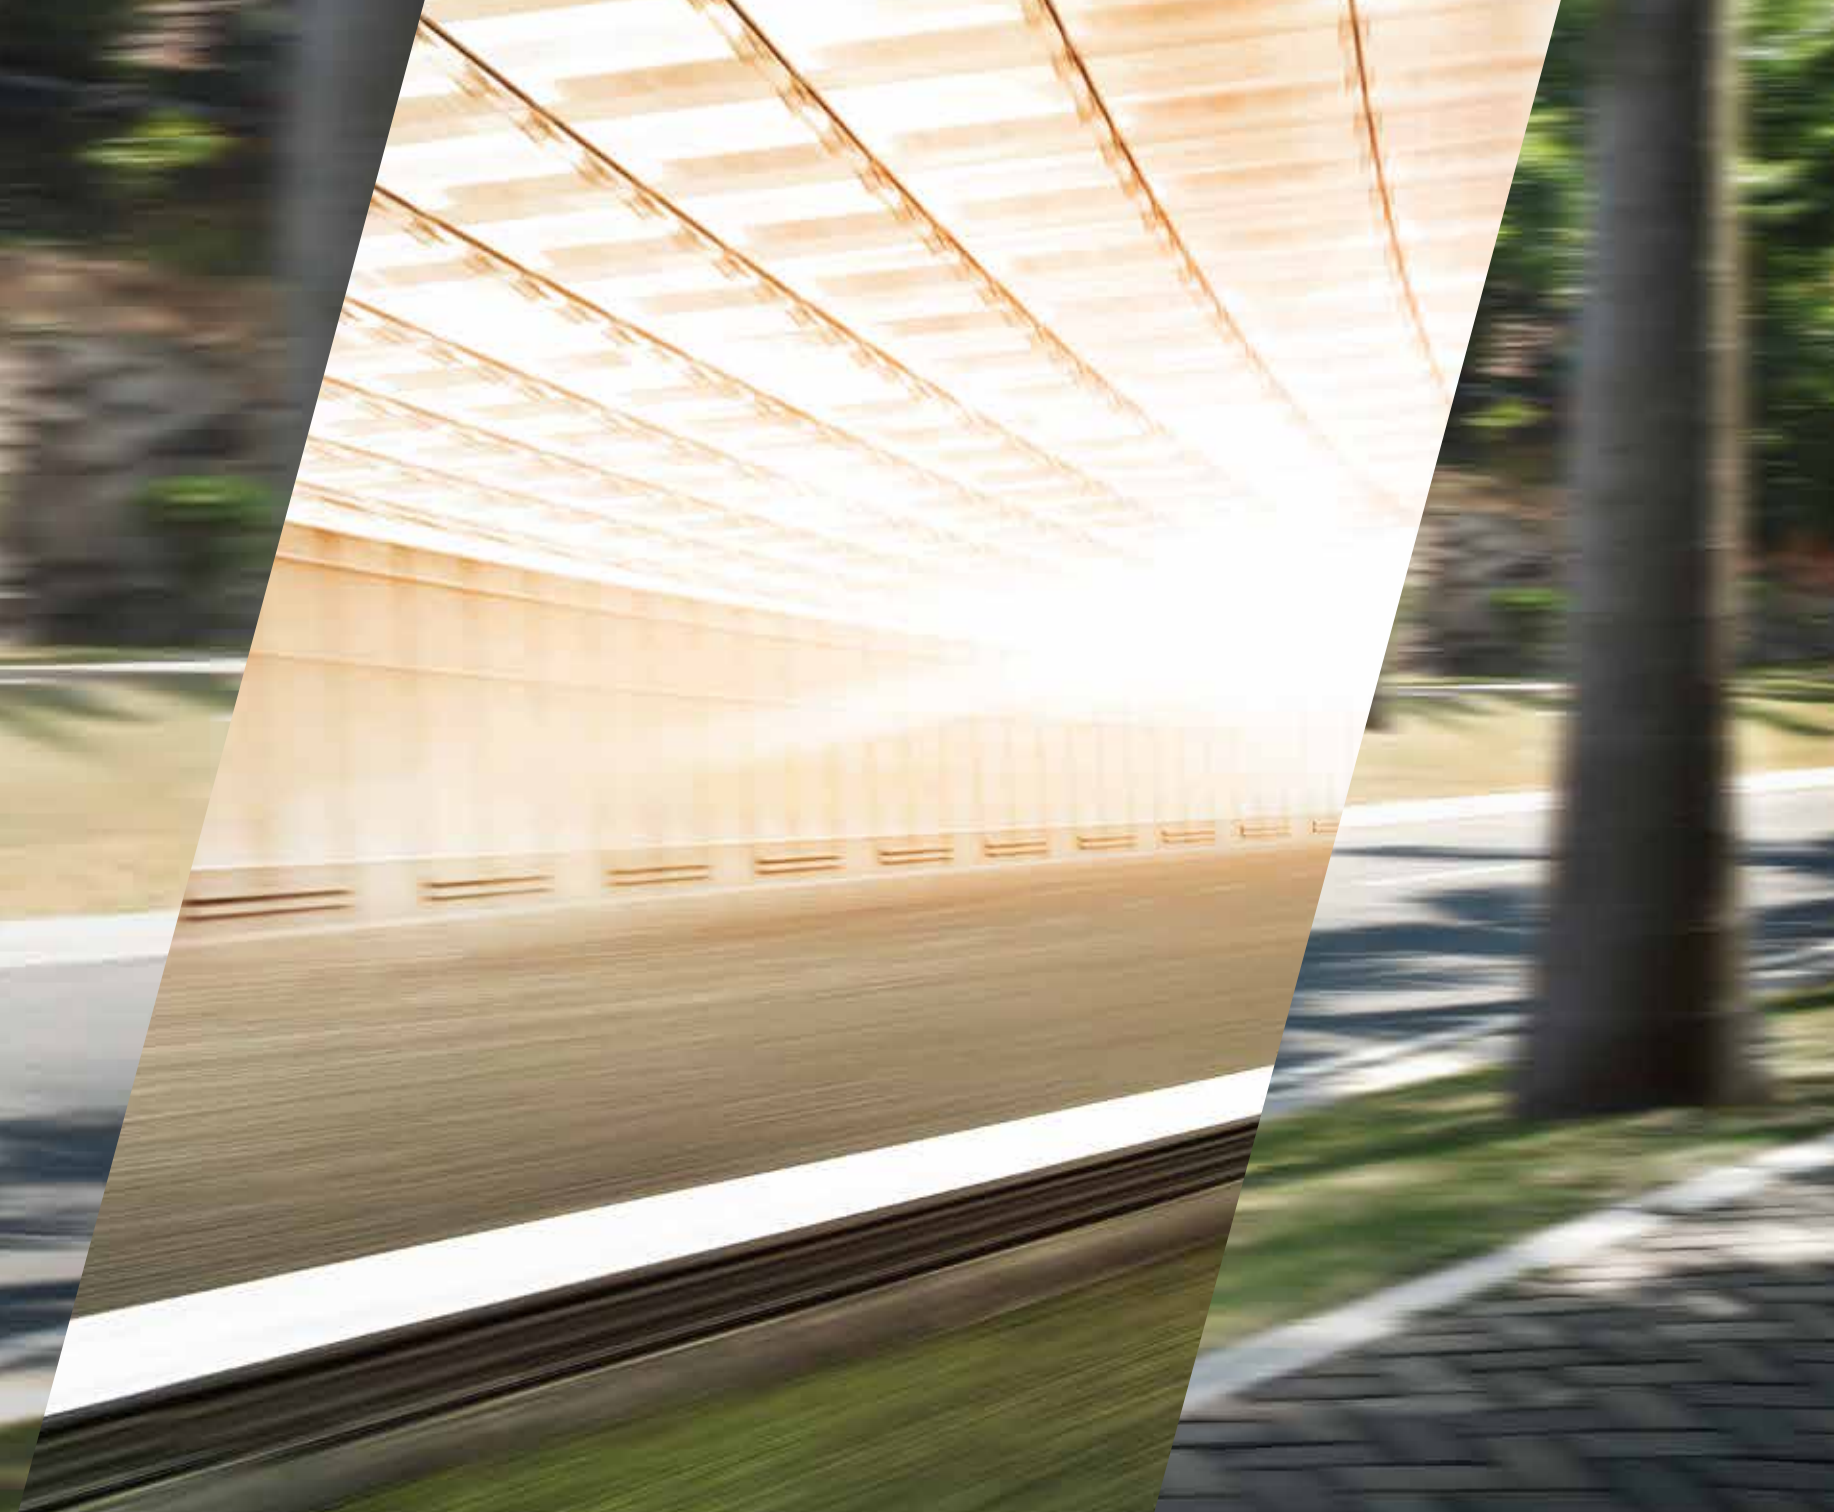

Intelligent Fuel-saving Start-stop System

Taking advantage of the intelligent charging and fuel-saving power generator, GAC Motor GN8 can recover deceleration energy by adjusting the generating voltage in real time, thus reducing fuel consumption and extending driving range.

Drive Forward with a Peaceful but Assertive Mind

Feel Confident with Guaranteed Safety

Move effortlessly with intelligent control

All Direction Protection Features

Comprehensive, Intelligent Safety Features

Bosch ESP 9.1

Bosch ESP 9.1 can effectively prevent side slip with 14 active safety systems, including Hill-start hold control (HHC) and hill decent control (HDC), ensuring stable driving and leisurely handling.

Tire Pressure Monitoring System (TPMS)

Through the detection of direct sensors, the on-board computer displays tire pressure and tire temperature in real time and provides instant alarm in case of abnormal tire pressure or air leakage to prevent possible accidents, extending tire lifespan economically.

Electronic Parking Brake (EPB) with Auto-hold

The advanced EPB system brakes the vehicle within 0.1 second. After deep tuning of the EPB and ESP, the system can ensure 10min ramp auto-hold. Even under the extreme environment of -40°C, it can maintain hydraulic press automatically to improve braking capability.

Passive Safety Features For Multi-fold Protection

Comprehensive 6 Safety Air Bags + Air Curtain

Equipped with six comprehensive air bags, double pretensioner safety belts at the front row, and the pretensioner safety belt at the second row, the vehicle ensures sufficient head and chest protection, setting new safety benchmark for MPV's.

360° Panoramic Parking System

Foresight is the key to security. The 360° Panoramic Parking System captures the front, back, left and right images of the vehicle with four 180° cameras, and displays the bird's eye view of the surrounding including the nearby vehicles and objects on the center console, ensuring the driver more confidence while parking.

GAC High-strength Steel Safety Body

GAC Motor GN8 inherits the powerful body design of GAC Motor family, and the proportion of high-strength steel in the cabin reaches 95%, which is 55% far higher than the industrial standard. Its extraordinary quality and reliability are also embodied by its roof anti-pressure and door anti-penetration abilities far higher than the national standard.
